SS4A Program!

## Safe Streets & Roads For All (SS4A)

The Haines Borough and Chilkoot Indian Association are teaming up to create an SS4A Transportation Safety Action Plan.

Funded by a USDOT grant, this community-led effort will blend local insight with safety studies and crash data analysis to pinpoint problem areas, set priorities, and drive real improvements for safer travel across Haines.

## Your Roads, *YOUR VOICE.*

You'll have plenty of opportunities to participate through:

- A Community Safety Survey
- Public Events
- Assembly & PC Meetings

A Steering Committee, set to be formed soon, will also help guide the plan and ensure it reflects local priorities.

**This project is just getting started, so stay tuned for updates!**

Information will be available on the project website (in the works), shared on local social media channels, and posted around town.
